

Glen Raven Custom Fabrics, LLC's exclusive flexible and anti-crazing eradicable back-lit awning and sign fabric was developed with the user in mind. By popular demand, we have developed this light-weight vinyl-laminated polyester fabric with an acrylic topcoat. Eradi-Lite® features a unique blend of plasticizers and elastomers which make the material resistant to plasticizer migration, staining and abrasion, while still remaining highly flexible. It is now available in 13 brilliant colors and features a 8-year limited warranty.
